

Expanding the Toolbox: A Series of Bioscience Instrument Talks and Demos

How the new Olympus VS200 Slide Scanner with TruAI artificial intelligence is accelerating

Zoom Presentation:
October 14, 2021
11:30am – 12:30pm MST

Demo:
November 2-4, 2021
RegenMed Core Facility
ISTB1 153D

Image acquisition and subsequent analysis can be laborious and time-consuming. Reducing this time can lead to an increase in publications for any research group. Automatically scanning entire projects or batches of slides and analyzing using AI significantly increases productivity. This presentation describes the new Olympus VS200 Slide Scanner and Olympus TruAI analysis.

Speaker: Gavin Ryan, PhD, Research Imaging Specialist at Olympus.
